

WPP-WH

10" Cartridge with granulated activated carbon from nut shells

Description:

Carbon UDF filter cartridge made of activated carbon. WPP-WH is an economical filter cartridge for water, whose outer casing is made of plastic filled inside with high quality granulated, activated carbon from nut shells. The task of activated carbon is to purify water from chemical pollutants such as chlorine and its derivatives, and from organic compounds found in water. Thanks to its properties it significantly improves the taste and smell of water. Carbon from nuts has very good absorption properties, thanks to which it is able to filter even heavily polluted water.

The filter cartridge is additionally protected at the inlet and outlet by an insert 20 micron polypropylene geotextile and protective filtering sponge before getting out of the filter. The construction of the filter forces the water to flow from the bottom to the top, so that the contact of water with activated carbon is maximum elongate. These types of inserts are most often used in whole house filters and in undercounter systems of both traditional and reverse osmosis.

CHLORINE REMOVAL

TASTE & ODOR

SEDIMENT REMOVAL

REMOVES TOXIC ORGANIC COMPOUNDS

How WPP-WH works?

Features:

- HIGH QUALITY
- COMPETITIVE PRICE
- PERFECTLY IMPROVES TASTE AND SMELL
- REMOVES CHLORINE, TOXIC ORGANIC COMPOUNDS AND SOME PESTICIDES
- CARTRIDGE HAVE SPECIAL INSERT THAT PREVENTS LEACHING OF BED PARTICLES
- USED FOR COLD WATER

Technical Data:

Media : activated carbon block from nut shells, polypropylene

Durability*: 3 - 6 months

Pressure: max.: 6 bar

Temp. operation: 2°C -40°C

Removes: chlorine, VOCs e

Cap and Housing: PP Polipropylene

O-rings: Silikone

Post-filter: PP

* depends on usage

WPP-WH

Important:

- Warning: rinse the cartridge until the water color disappears before use.
 - Do not use with microbiologically contaminated water or water of unknown origin.
 - Cartridges help reduce the content of impurities in the water. Replace the cartridge every 3 to 6 months (depending on water quality and degree of pollution).
 - In order to ensure the correct operation of the filter / cartridge, we suggest that you make the necessary replacement of cartridges according to the information provided by the manufacturer.
- H2OO guarantees that the product is free from material and manufacturing defects. The warranty does not cover mechanical damages resulting from improper use, misuse of the object, lack of proper maintenance or replacement of the product according to its instructions.
