

WWBH

10" Carbon Block Cartridge

CHLORINE REMOVAL

TASTE & ODOR

PESTICIDES REMOVAL

REMOVES TOXIC ORGANIC COMPOUNDS

Description:

The cartridge is made of high quality sintered activated carbon block. The economical cartridge from the carbon block has very low dustiness.

Thanks to this, they are well suited to the reverse osmosis system for pre-filtration.

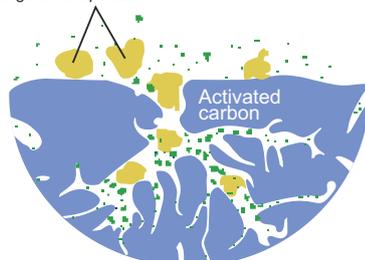

The high density of the carbon block ensures the longest possible contact of water with activated carbon. The purpose of the **WWBH** cartridge is to clean the water from any chemical contamination like chlorine and its derivatives and organic like pesticides. Thanks to such filtration, the osmotic membrane is protected against the effects of chlorine-containing compounds and the improved taste and smell of water.

Despite the high density of the carbon block, the pressure of the flowing water decreases by him is minimal.

Its task is to purify the water from chemical and organic compounds.

Carbon Block effectiveness

Big organic compounds

Raw water wraps the block from the outside towards the core. Chlorine and its derivatives are retained on the surface, and the purified water flows into the inside of the cartridge.

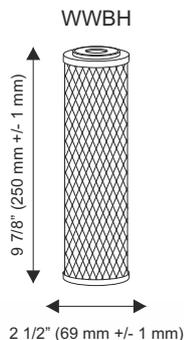

Features:

- HIGH QUALITY
- COMPETITIVE PRICE
- PERFECT FILTRATION IN LOW PRESSURE
- MANUFACTURED FROM SAFE MATERIALS
- PERFECTLY IMPROVES TASTE AND SMELL
- REMOVES CHLORINE, TOXIC ORGANIC COMPOUNDS AND SOME PESTICIDES
- FAST PRODUCT DELIVERY

Technical Data:

Media : activated carbon block
Durability*: 3 - 6 months
Pressure: max.: 6 bar
Temp. operation: 2°C -40°C
Removes: chlorine, VOCs
Recommended Flow: 6 l / min
Cap: PP Polipropylene
O-rings: NBR
Net: LDPE Polietylene

* depends on usage

Important:

- Warning: rinse the cartridge until the water color disappears before use.
 - Do not use with microbiologically contaminated water or water of unknown origin.
 - Cartridges help reduce the content of impurities in the water. Replace the cartridge every 3 to 6 months (depending on water quality and degree of pollution).
 - In order to ensure the correct operation of the filter / cartridge, we suggest that you make the necessary replacement of cartridges according to the information provided by the manufacturer.
- H2O0 guarantees that the product is free from material and manufacturing defects. The warranty does not cover mechanical damages resulting from improper use, misuse of the object, lack of proper maintenance or replacement of the product according to its instructions.
